ORIGO[™] MIG 410

ROBUST AND POWERFUL

Origo[™] Mig 410 is a sturdy and robust step switched power source for heavy duty MIG/MAG welding. Well proven technology together with ESAB developed software provides high reliability and outstanding welding performance.

The machine is made with a strong galvanised metal casing to withstand harsh environments. The large wheels, sturdy lifting eyelets and an under carriage designed for transport with forklift makes the machine easy to move.

FLEXIBILITY

- The machines are optimised to operate together with Origo[™] Feed 304 or Origo[™] Feed 484 wire feeders. As standard the wire feed unit sits on a swivel post mounted on the top of the Origo[™] Mig providing a 360° radius of operation.
- The in series fitted and calibrated digital meter kit provides an accurate reading of the set welding parameters and will hold its display even after welding has finished.
- Differing wire feed unit mounting options and interconnection cable lengths of up to 35 metres provide maximum flexibility and working area.
- The system is prepared ready for simple mechanisation applications using the ESAB MiggyTrac and Railtrac.

EASY TO USE

The wide current and voltage range make it easy to optimise settings for a wide variety of filler materials and gases.

The patented ELP, ESAB LogicPump, on the water cooled variants automatically starts the water pump in the machine when a water cooled gun is connected to the wire feeder (Origo[™] Feed 304 or Origo[™] Feed 484). This eliminates the risk of over-heating the welding gun and prevents costly repairs. When a self-cooled gun is used, the pump is automatically shut off giving lower noise and longer lifetime for the cooling pump.

UNRIVALLED SERVICE AND SUPPORT

Our commitment and ability to deliver the expected service and support starts immediately after the order is confirmed. We endeavour to offer our customers an After Sales service, which is second to non. A strong and skilful service organisation is prepared to offer service and maintenance, calibration, validation and upgrading of equipment and software.

The service organisation will offer standardised solutions for the reconditioning or modification of existing products.

Spare and wear parts are manufactured according to ESAB's quality plan. Exchange Printed Circuit Board (PCB), exchange modules and components are available for all our products in order to reduce downtime to an absolute minimum. ESAB is continuously upgrading authorised service partners for local service support. Customers who have their own service and maintenance personnel will always be offered a service-training package as part of a total ESAB offering. However, product and process training for end-users will form an additional part of the ESAB offering. Always ask your ESAB sales representative or distributor for a complete ESAB solution.

QUALITY ACCESSORIES FOR THE QUALITY WELDER ESAB offers a wide range of

accessories. The complete range, along with product information, is available at our local websites look at www.esab.com or contact your local ESAB dealer.

TECHNICAL DATA, ORIGO[™] MIG 410

Mains Voltage, V/Ph Hz	400-415 3~ 50/60 or 230/400-415/500, 3~ 50 230/440-460, 3~ 60
Fuse Slow, A	400V/20A
Mains cable, mm ²	4 x 2.5
Permitted load at 50% duty cycle, A/V 60% duty cycle, A/V 100% duty cycle, A/V	400 / 34 365 / 32 280 / 28
Setting range, (DC), A/V	50 / 16.5 - 400 / 34
Open Circuit Voltage, V	17- 45
Open Circuit Voltage, W	360
with cooling unit, W	600
Power factor at maximum current	0.98
Efficiency at maximum current, %	71
Voltage steps	40
Inductance outlets	2
Dimensions lxwxh, mm	812 x 552 x 925
Weight, kg	144
with cooling unit	158
Operating temperature, °C	-10 till +40
Enclosure class	IP 23
Application classification	S

ORDERING INFORMATION

Description	Item number
Origo™ Mig 410 (400-415V 50Hz)	0349 303 563
Air filter	0349 302 423
Origo™ Feed 304, M12 encl. Wire Feeder - c/w 0.9/1.2mm V Groove Feed Rolls	0459 116 882
Cable holder	0349 303 362
Stabilizer	0349 303 474
Reinforcer kit for counterbalance	0349 309 748

Delivery content: 5 m mains cable, wheels, 5m return cable with clamps, shelf for gas cylinder and a guide pin for the wire feeder, instruction manual.
