306074	24HS	250-300	18.0	320 (650)	90

Type 44 Oxy / LPG or Natural Gas (HIGH Speed)

Part Number	Size	Plate Thickness	Fuel Gas Flow l/min @ 100kPa	Total Oxygen Flow & Pressure l/min @ kPa	Cutting Speed mm/min [†]
306018	6HS	6-8	5.0	45 (650)	550
306019	8HS	8-20	5.0	64 (650)	550-500
306021	12HS	25-75	6.5	122 (650)	500-300
306022	15HS	75-150	7.0	173 (650)	300-200
306023	20HS	150-250	8.0	267 (650)	200-100
306074	24HS	250-300	18.0	320 (650)	90

NOTE: Preheat oxygen pressure for all hi-speed nozzles = 200 kPa

[†] Cutting speeds are average values for drop cuts on clean plate with nozzles in good condition – variations could be expected due to actual working conditions. NB Cutting nozzles can operate over a range of gas flows (hence plate thicknesses). The values are typical operating conditions and can be increased or decreased to suit particular applications.
