ARC UP®

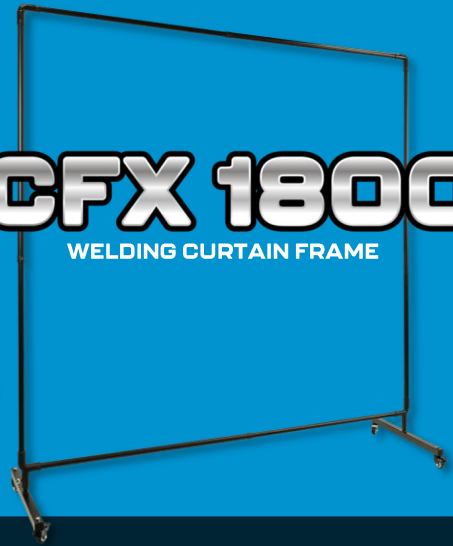

CTX SERIES

PREMIUM WELDING CURTAINS

CFX 1800

WELDING CURTAIN FRAME

ADVANCED WELDING PROTECTION

The ArcUp! CTX1800 Series includes premium Red and Dark Green welding curtains designed to protect personnel, equipment, and workspaces from sparks, spatter, and UV radiation during welding operations. Made from flame-retardant PVC and tested to EN ISO 25980:2015, these curtains provide visual hazard control and a durable physical barrier without compromising visibility or safety.

CTX 1800R

1.8 x 1.8m

Low UV Resistance

CTX 1800G

1.8 x 1.8m

Moderate UV Resistance

CFX 1800

1.8 x 1.8m

Frame Only

Curtain Features

- **Flame-Retardant PVC Material**
Provides a reliable barrier against sparks, molten metal, and spatter for safer work environments.
- **Tested to EN ISO 25980:2015**
Ensures compliance with international safety standards for welding environments.
- **24x Brass Eyelets**
Allows secure and flexible hanging on frames or fixed structures.
- **24X Stainless Steel attachment rings**
For reliable, corrosion resistant performance in tough industrial and marine environments. Also includes 24x cable ties.
- **UV-resistant tinted options**
Reduces arc flash exposure to protect nearby workers without darkening the workspace.
- **True 1.8 x 1.8m sizing**
Updated true 1.8m x 1.8m sizing for edge to edge coverage without gaps. Compatible with CFX 1800 welding frame for quick integration.
- **Flexible and lightweight**
Easy to handle, reposition, and store when not in use.
- **Enhanced workplace visibility**
Maintains ambient light while controlling exposure to hazardous UV radiation.

WELDING CURTAIN FRAME

ARC UP®

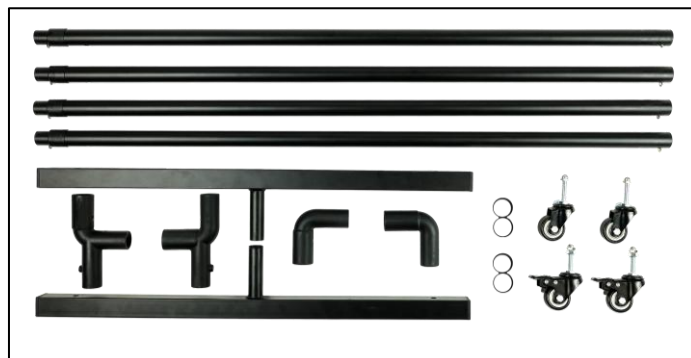

ADVANCED WELDING PROTECTION

The **CFX1800** is a lightweight, modular frame designed to support CTX Series of welding curtains in a variety of industrial environments. With tool free assembly and a corrosion resistant finish, it provides a stable, reusable mounting solution.

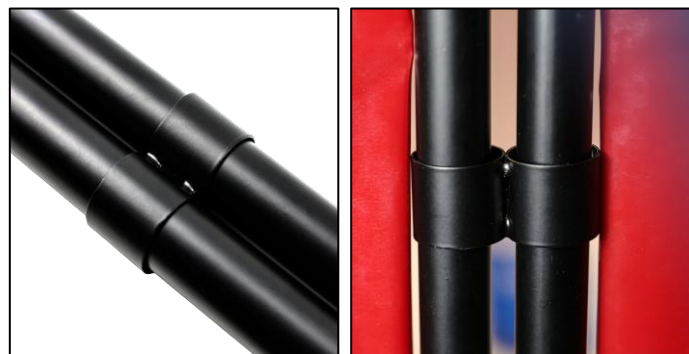

Curtain Frame Features

- **Rugged Steel Construction**
Provides long term durability and withstands heavy use in demanding work environments.
- **Tool Free Assembly**
Quick setup without needing any tools, reducing downtime.
- **Corrosion Resistant Powder Coated Finish**
Protects the frame in both indoor and outdoor conditions, extending product life.
- **Perfect Fit for CTX 1800 Curtains**
Designed to match the 1.8 x 1.8m CTX 1800 curtains for seamless and secure installation.

- **Compact and Modular Design**
Easily disassembles for efficient transport, handling, and storage.

- **Connection Kit**
Each frame comes with a connection kit that allows you to securely link up to two frames together for extended curtain setups.
