WELDING LEAD SETS

WELDING WITH FLX!

FLX is the ultimate welding accessory package! Utilizing a high flex cable system with 100% pure copper, FLX maximizes performance and ensure a secure connection for enhanced reliability. Designed to suit welders of all experience levels, FLX is available in a wide range of sizes, connections, ratings, and package options to meet every application. FLX is simple. Affordable. Quality.

HIGH FLEX CABLE SYSTEM!

FLX is a high-flex cable system manufactured from 100% pure copper and wrapped in a highly resistant, durable EPDM sheath. This design ensures exceptional performance and reliability in demanding welding environments!

HIGH QUALITY ELECTRODE HOLDER!

Featuring a fully insulated Twist Lock design, FLX Lead Sets are engineered for simplicity and reliability. The Electrode Holder accommodates electrodes up to 4-5mm, depending on the selected amperage rating, allowing you to strike an arc with confidence.

- <300A: 4mm Capacity
- >300A: 5mm Capacity

HEAVY DUTY WORK CLAMP!

The CIGWELD Work Clamp features a heavy-duty, spring-loaded design. Combined with copper braided shunts, it delivers optimal clamping force and superior conductivity, ensuring consistent and reliable welding performance!

DINSE* CONNECTION!

Available with both 25mm and 50mm DINSE* connections, FLX Lead Sets are engineered to deliver secure, reliable connectivity for optimal performance.

	646350	CIGWELD Heavy Duty Work Clamp - 600A	600A @ 60%	9310574009387

BRASS WORK CLAMPS

The 500A Brass Work Clamp is built to last with the full brass construction, helping to provide exceptional conductivity and resist oxidation.

The 500A G Type Work Clamp features an all brass construction with a steel fixing screw. The compact and durable design caters for welding cable up to 95mm² and boasts a duty cycle of 500A @ 60%.

	P/N:	DESCRIPTION	AMP RATING	BARCODE

	646351	CIGWELD Work Clamp - 500A G Type	500A @ 60%	9310574009394

ROTARY WORK CLAMPS

CIGWELD Rotary Work Clamps are designed to rotate freely and smoothly while maintaining a secure grounding connection. Built for industrial applications, the durable brass construction withstands heavy use with a 60% duty cycle.

	P/N:	DESCRIPTION	AMP RATING:	BARCODE
	646393	CIGWELD Rotary Work Clamp - 600A	600A @ 60%	9310574096059
	646392	CIGWELD Rotary Work Clamp - 1000A	1000A @ 60%	9310574089525

ELECTRODE HOLDERS

CIGWELD Electrode Holders feature a fully insulated twist-lock design for simple, reliable operation and a secure grip on electrodes. The range includes AS 60974.11 (Type A) compliant models – part numbers 646142 and 646343.

	P/N:	DESCRIPTION	ELECTRODE CAPACITY	AMP RATING	BARCODE
