ARCLOCKER

PREMIUM MACHINE COVERS

THE ULTIMATE SOLUTION IN MACHINE STORAGE AND PROTECTION

HEAVY-DUTY PROTECTION

Introducing the **ArcLocker Premium Machine Cover** — designed for complete protection in even the toughest workshop environments. Made from flame-retardant **1000 denier tarpaulin**, this cover shields your equipment from dust, debris, moisture, and molten splash, keeping your machine in peak condition. Whether in a fabrication shop or on-site workspace, it offers a simple and effective solution to protect valuable welding assets.

The ArcLocker Premium Machine Cover range is feature packed and designed for your convenience. **Front and rear flaps** allow you to keep your cables and leads connected; simply slip the cover over your machine and it's protected. Make use of the **side pockets** to store your TIG torch, MIG gun and consumables; keep all your equipment together.

Handle cutouts on Small and Medium covers lets you take your protected machine with you on the go.

PROTECTION EXTENDED

A **Cover Extender** is included with Medium and Large Covers, for a bit of extra height. **Snap fasteners** make for a quick and easy attachment, offering protection for an attached water cooler. Designed specifically for the CoolVenom 4LTR and 7LTR.

A COVER FIT FOR A TROLLEY!

Need a cover for a welder on a trolley? The Extra Large Machine Cover is designed to fit over a fully stacked trolley, with added height to fit a Water Cooler and External Wire Feeder. Featuring 4 large pockets to store whatever you need and an open back to keep gas and power connections attached.

RESISTANT MATERIAL

Water resistant, dust resistant and flame-retardant heavy-duty material, built to withstand the dirtiest work environments.

SIDE POCKET STORAGE

Side pockets on all covers make for convenient storage. Store consumables and accessories along with your machine.

STAY CONNECTED

Front and back flaps make for a hassle-free installation. Don't bother with removing attached cables and leads.

ORDERING DETAILS

P/N	Cover Size	Dimensions (L x W x H)
457580	Small	550 x 200 x 320mm
457581	Medium	650 x 230 x 400+250mm*
457583	Large	750 x 280 x 500+275mm*
